WE NEED HELP!

Doors are opening all over Georgia and Texas. There are hundreds of kids this very minute who are locked up with no family or friends to turn to. Society has all but forgotten them. Many people believe that these kids deserve to be locked up, that they have been troublemakers all their lives and they're getting what they deserve. If that's what you think about at-risk kids, then please feel free to stop reading now before your mindset is challenged.

The God I serve is a God of second chances.

If He weren't, none of us could possibly stand in His presence. The kids Crosswalk works with are the "least of these" that Jesus refers to in Matthew 25. I believe He holds them close to His heart and He expects us to make a special effort to take His message of hope to them. They are so hungry and thirsty for that message and for a relationship with the messengers. Over and over again evidence proves that the difference between a kid who chooses drugs and gangs over one who chooses a more positive lifestyle is a relationship with even ONE caring, consistent adult.

You can be that one caring individual! It's really very simple--just volunteer.

With all the new programs we are implementing and the facilities we are serving, we also are in dire need of more financial support. Churches, businesses, and individual donors are needed to make this effort what God intends it to be.

Your time, your talents, your prosperity... Please share them all to help a child

Walking by faith,

Gina

Gina Moore, Executive Director
